

PASSPORT RAV

Bio

Hip Hop artist/producer, Passport Rav (fka Rav.P) has been working the tri-state area for a few years now. He sold out SOB's with Dave East and has also collaborated with the legendary Black Thought. Not only rapping on the song **"Achievements"** but also produced the record. Passport Rav loves dope sample loops, conscious ratchetness and animation. He put out his first animated video from upcoming project "Fanciest Negro" called **"Delayed Flights"**. His musical influence Kanye West makes him believe that being a dope producer and rapper is very possible and makes you versatile. Passport Rav currently has a single **"Wholistic Wraps"** that gets spins on college radio available on Spotify as well. Rav has toured London alongside Dre Skuffs in 2017. During the tour he went on Fubar radio spittin a **killer verse** that got attention from Clinton Sparks and Dj Kool Herc. Passport Rav is looking to make a worldwide statement with his talent.

Press

"Delayed Flights" the song is dope, but the animated visual created by 7God captures the feeling of being helpless in movement while waiting your turn. Oh, and some advice from Rav, "Do not rush the process. #BeFlyStayHungry!"
